PROFILE

Computer Science student at FH Technikum Wien working where IT operations meet software development: on-site IT support at international corporations such as Nestlé with ServiceNow and Microsoft Intune, Salesforce administration, four client websites as a freelance web developer and my own AI applications integrating multiple LLMs. Goal: from IT support via system administration towards cloud & DevOps.

TECHNICAL SKILLS

Programming	Advanced: JavaScript, Python, C# (.NET 8), SQL, HTML/CSS · Basic: C++, PHP
Web Frameworks	Angular, React, Next.js, TypeScript, Tailwind CSS
Backend & Data	REST APIs, PostgreSQL, token-based authentication, unit testing
Tools & Platforms	Git, GitHub, Docker / Docker Compose, Postman, Salesforce, Jira, Confluence, VS Code
AI Integration	Claude, OpenAI, Groq (LLaMA), Mistral – multi-provider integration via API
IT Support & Systems	Windows 10/11, Microsoft 365, Active Directory, Entra ID, Microsoft Intune (MDM), ServiceNow (ITSM), TCP/IP, DNS, DHCP
Methods	Agile/Scrum (hands-on), OOP, CI/CD

WORK EXPERIENCE

On-Site IT Support (Backfill)

since 11/2026

Hemmersbach – assignment at Nestlé Austria, Vienna · temporary cover assignments

- On-site break-fix support for hardware and software issues, covering for permanent staff
- Onboarded new users incl. hardware handover
- Weekly functional checks of meeting rooms and support with meeting room technology
- Handled and documented tickets in ServiceNow (ITSM)

On-Site IT Support

07/2026 – 08/2026

NAZ Dienstleistungen GmbH, Vienna

- On-site hardware and software support for around 15 employees at the site of an international corporation
- Handled and fully documented support tickets in ServiceNow (ITSM)
- Managed the company-wide device fleet via Microsoft Intune (MDM)

Freelance Web Developer VIEW PORTFOLIO

11/2025 – present

Self-employed – Web Development & Design, Vienna

- Delivered 4 client websites independently, from first meeting and design to deployment incl. hosting
- Built with Angular, React/Next.js, TypeScript and Tailwind CSS
- Source code of a reference project versioned and public on GitHub

Salesforce Administrator (Internship) VIEW PORTFOLIO

09/2025 – 12/2025

Reyada – CRM & Salesforce Consulting, Remote

- Extended the standard objects Lead and Opportunity in a CRM project for a car dealership
- Automated lead creation and purchase contracts with Salesforce Screen Flows
- Created users with profiles and permissions in the sandbox environment
- Worked in a Scrum team with 2-week sprints and daily stand-ups in Jira and Confluence

IT Support & Technician 10/2023 – 08/2024

Techify – IT Retail & Repair Service, Vienna

- Led a team of 4 and organised daily business operations
- Introduced a structured weekly billing process for better financial transparency
- Diagnosed and repaired hardware (PCs, laptops, smartphones, peripherals) for 30+ customers per week
- Troubleshot software and Windows issues and advised customers on technical questions

PROJECTS

Media Ratings Platform (MRP) 2025

Semester project – FH Technikum Wien

- RESTful HTTP server in C# (.NET 8) with token-based authentication and PostgreSQL
- Implemented CRUD operations, a rating system, favourites and content recommendations
- Covered by 20+ unit tests; Docker Compose setup and Postman collection for integration testing

ToS Analyzer VIEW PORTFOLIO 2026

Personal project – browser extension

- Chrome extension (Manifest V3) that rates terms of service and privacy policies with AI on an A–E score
- Integrates several LLM providers (Groq, Claude, OpenAI) with categorised warnings and inline highlighting
- Local storage via chrome.storage, no tracking and no backend server

TradeSignal AI VIEW PORTFOLIO 2026

Personal project – trading bot

- Python bot monitoring several Telegram channels in real time via Telethon
- Turns trading signals into structured orders using an LLM (LLaMA via Groq API)
- Automatic order execution in MetaTrader 5 incl. stop-loss/take-profit; tested end-to-end on a demo account

Moodle pAIpline 2025

Semester project – FH Technikum Wien

- Prototype AI pipeline that generates Moodle courses incl. quizzes automatically (Python, PHP, Moodle XML)
- Integrates several LLMs (Claude, ChatGPT, Mistral) with a validation module for quality assurance

EDUCATION

BSc Computer Science – FH Technikum Wien 2024 – 2027 (expected)

Bachelor thesis: building and evaluating an open-source SIEM (Wazuh) for SMEs · Focus areas: DevOps & Cloud Computing, IT Security, Continuous Integration

Matura (A-levels) – BRG 16 Schuhmeierplatz, Vienna 2013 – 2021

CERTIFICATIONS

Introduction to Cybersecurity – Cisco Networking Academy 07/2026

European Business Competence* Licence (EBC*L) 02/2025 – 05/2025

FURTHER EXPERIENCE

Civilian Service · *Caritas Haus Grangasse, Vienna* 01/2023 – 09/2023

Supported nursing staff, organised leisure activities, administration

Security Supervisor · *Custos Security Dienst, Vienna* 01/2021 – 10/2022

Led and trained security staff, access control and on-site de-escalation
